Michael A. Smerconish : Morning Drive: Things I Wish I Knew Before I Started Talking before purchasing it in order to gage whether or not it would be worth my time, and all praised Morning Drive: Things I Wish I Knew Before I Started Talking:

0 of 0 people found the following review helpful. Not what I was looking for from the book...By S. J. HagenThere may have been excerpts of things Mr. Smerconish knew before he started talking, but mainly, it seemed as though he just liked talking. It's not as though I disagreed with everything he said, he's an intelligent guy. But, the book was about himself, plain and simple... Not really what I'd hoped to read.I bought the book on the strength of Arlen

Specter's statement on the back cover: "Morning Drive is a must for Washington insiders and citizens across the country who are interested in preserving not just a healthy two party system -- but also their ability to get access to balanced, impartial news." That's a pretty persuasive quote. Future reviews from Senator Specter will be taken with a grain of salt. 0 of 0 people found the following review helpful. Michale Smerconish By Sandy Sposito Michael is my kind of reporter. He is awesome, I listen to him on POTUS every morning and plan to read all of his books. 0 of 5 people found the following review helpful. Great Stories By Joseph F. Greenwich A must-read book. I've been a listener of Michael's for years. It's nice to see the old stories in print now.

Michael Smerconish attorney-turned-political-pundit, radio talk show host, columnist, author and all-around lightning rod of controversy and spirited discussion is back!

From Publishers Weekly In this memoir-cum-mission statement, radio talker Smerconish delivers a wrap-up of his punditry career mapped to a 15-point "Suburban Manifesto" he first published in a 2006 Philadelphia Daily News column. A long-time Republican upset by his party's present course, Smerconish outlines his principles and goals in the realms of politics (pushing back against the far right) and media (he claims to be mislabeled "conservative"). Instead of focusing on opinions, however, Smerconish presents memorable anecdotes from his career, illuminating life behind the mike. Readers of any political persuasion should find Smerconish's candor and style accessible and quite charming, as he demonstrates unusual respect for all kinds of political thought. His Manifesto (with entries for immigration, gays, preventing terror, Bin Laden, etc.), however, provides scatter-shot organization, derailed further by a tendency to wander (or leap) off topic. Though this volume makes Smerconish a more accessible and sympathetic figure than most pundits, it puts his strong common-sense agenda (his ostensible *raison d'être*) on the back burner. Copyright Reed Business Information, a division of Reed Elsevier Inc. All rights reserved. From the Inside Flap Michael A. Smerconish nationally syndicated radio talk show host, columnist, author, and all-around lightning rod of controversy and spirited discussion is back! In *Morning Drive*, he displays the same no-nonsense candor he did in his two best-selling books, covering the gamut of his trademark straight talk on hot-button issues on the minds of Americans today, from government spending and taxes to torture and fighting terrorism, from immigration to gay marriage and global warming.
