Toby Hadoke : Moths Ate My Doctor Who Scarf: The BBC Adaptation of the One Man Show before purchasing it in order to gauge whether or not it would be worth my time, and all praised Moths Ate My Doctor Who Scarf: The BBC Adaptation of the One Man Show:

6 of 6 people found the following review helpful. Ah, the trials of fandom ...By J. C. Roberts It's a good thing that both Toby Hadoke and I are Doctor Who fans, because I might never have heard of him otherwise. Toby's one man show (done with assistance in this case by Colin Baker and Louise Jameson, among others) is brilliant; by turns laugh-out-loud funny and bittersweet, and seems strangely familiar. Oh, that's right, I'm an aging Doctor Who fan myself! This isn't all Toby has done, of course, and I highly recommend a Google search to see what else he gets up to. If, however, you have ever been a fan of anything, particularly a fan of Doctor Who, and have faced the developing paradoxes that inevitably occur in a world that frowns on imagination and escapism, then you owe it to yourself to either buy this CD, or else download it LEGALLY. Toby is brilliant, and shouldn't be cheated out of his royalties by people who just want free stuff. Either way, you'll find yourself feeling amused, entertained, and quite possibly nostalgic. Thanks, Toby, and keep up the stellar work! 2 of 2 people found the following review helpful. Wrapped in a cosmic scarf of comfort...By Blue Lake Boy A warm, witty and rather wonderful account of growing up with Doctor Who through the dark days of the 1980s, touching on some of the big issues of life along the way, such as family, fatherhood, fandom and, er, what the fun were they thinking of with the Myrka! By turns hilarious and heartbreaking, this bittersweet paean to the

profound pain and pleasure of growing up different and realising, through the example of the Doctor, just how far one tatty old scarf can spread through one life...Thanks Toby, for sharing your story, may your corridors of truth never run out.

This is a two-part BBC 7 adaptation of Toby Hadokes sensational stand-up show about Doctor Who, fandom, and one mans lifelong obsession. Toby Hadoke was born to love Doctor Who. To Toby, a shy, weedy kid whose dad had left home, the Doctor was a hero and the show a lifeline he clung to throughout his childhood. He kept the faith when other boys mocked him, girlfriends dumped him, and worst of all Doctor Who was cancelled. After living in the closet for sixteen years, finally the time has arrived to come out and admit it: yes, he is a Doctor Who fan and proud of it. Climb aboard award-winning comedian Toby Hadokes TARDIS on a trip through time, charting the rise, fall, and rise again of a television legend through his voice-overs and reminiscences. A swift, personal, satirical, and razor-sharp comic odyssey from child to man, through obsession, joy, and disappointment, this will thrill and delight both hardcore fans and those who wouldnt know a Slitheen from a Silurian.

"Heartfelt and heroic likely to do for Daleks and Cybermen what Fever Pitch did for football." William Cook, Guardian
