Mozart is an absolute genius! Batti Batti (Don Giovanni) just happens to be my favorite from this book, but there are so many other beautiful songs from it. The accompaniment CD is easily worth the price of the book itself. The quality of the CD is wonderful. This book would be an excellent addition to any aspiring singer's collection. I know it will always be part of mine. 1 of 1 people found the following review helpful. Great product By Sheryl Walter I was extremely pleased with the product. It was better than

Although the songs are not rare in the least, they are what I would consider standards for any beginning lyric or lyric-coloratura soprano. The CD has the piano accompaniments as well, which is very nice for practicing at home.

Professionally recorded piano accompaniments are available online for download or streaming.
