From Brand: Oxford University Press, USA : Mozart Studies 2 before purchasing it in order to gage whether or not it would be worth my time, and all praised Mozart Studies 2:

Published to complement Mozart Studies (published in 1991), Mozart Studies 2 offers a forum for the most important trends in recent Mozart scholarship, including substantial contributions in gender and genre studies, close readings of individual works (among them the "Prague" symphony and Le nozze di Figaro), textual and contextual research, and new directions in analysis, both for the operas and instrumental music. At the same time, it also aims to suggest directions for future research. In addition to Cliff Eisen, the contributors include leading Mozart scholars, among them

Mary Hunter, John Platoff, Wolf-Dieter Seiffert, and Elaine Sisman.

Praise for Mozart Studies: "Of all the Mozartiana published in the bicentenary celebrations, this collection of essays must count among the most important, for its breadth, for its significant revisions of received fact and opinion and for the way in which it suggests new directions in the critical study of a composer who never ceases to fascinate both the scholar and the listener."--Music and Letters
