Martin Roach : Music Facts and Trivia before purchasing it in order to gage whether or not it would be worth my time, and all praised Music Facts and Trivia:

2 of 2 people found the following review helpful. Book Has FALSE INFORMATION!By Reverend FlashWithout even reading this book, I can see by the editorial review that the book has not been properly researched. Right from the start, it tries to convince you that Cass Elliot died from choking on a ham sandwich. This could not be further from the truth. Check it out at the Snopes website or any other reliable source. Cass Elliot died of a heart attack. This is hardly secret information. People who believe that a sandwich killed Mama Cass are the same type of idiots who believe that Paul McCartney is dead or that Bill Gates is going to send you money for forwarding an email. Stay away from this

book unless you're intentionally looking to get stupid. should remove this item if they have any type of standards.

Did you know that Cass Elliot of the Mamas and Papas died after choking on a ham sandwich in the same apartment where The Who's Keith Moon overdosed? Or that in 1980, George Michael was without a record deal and unemployed while in 1990, he was worth \$43 million? A massive compendium of intriguing, unbelievable, absurd, surprising, and shocking facts from the world of music, this fun and informative book is an easy-to-read goldminedipping into it will delight music lovers, fact-finders, and anyone excited by a passion for miscellany.

About the Author Martin Roach is the author of Coldplay, Justin Timberlake, and Red Hot Chili Peppers.
