I practice music with my kids at home and these are just what we needed for quick and fun review of notes, musical words, etc. Nice quality set! Very, very worth the money!!! 0 of 0 people found the following review helpful. Helpful By The Guru I was instructed to get some flash cards by my instructor. These have been helpful in my studies and learning. I still refer to them occasionally 0 of 0 people found the following review helpful. They Are Great!! By Ginger Jensen I am now using this group of flash cards and already I am learning some things that I have forgotten over time and also some new concepts. I also purchased the set B, but have not worked with them as much. I chose these two products because they were flash cards and not a book. I can mix them up and challenge myself to remember. They are sturdy enough for me, but I can see where they might not be sturdy for small hands, however I can suggest getting some clear contact paper and placing that over both sides to cheaply "laminare" them. In time I may do this also.
