Rodney It doesn't have little tabs to with a letter on them to guide you to the area you are looking for and that is a real pain. Plenty of room for your entry though, and I do like that. 6 of 6 people found the following review helpful. Very same thing, a bit pissed about the FALSE ... By Marypoppins Very same thing, a bit pissed about the FALSE advertising picture. Lesson learned, I will NEVER order from this seller again. This is a SHINY and ugly address book. Very cheap, you get what

you pay for. 7 of 7 people found the following review helpful. Nice. By kmc0427 Great address book. Paperback, nice looking, alphabetized, plenty of space for lots of addresses. Pretty simple.

Modernized address book with a cool cover, same boring inside. Cover has an aged look but comes with a nice glossy cover. Address books are those things you stuff into the junk drawer and seldom look at especially with what smartphones can do today. But some of us still like the old school way of writing out everyones pertinent information like address, email, birthday etc. The Good The battery in this book (not that there is one) will never go dead. You have the space to write your real friends information, not like social media where it is everyone you dont want to contact you. It is 6 x 9 so you can actually read what you write especially if you write like me. Tiny lines equals tiny writing which leads to a lot of wrong numbers called to some embarrassing places! Inside you have plenty of room to write down everything you need to remember about that person. And if you decide they arent your friend anymore you can just white them out. Not as easy as deleting them but still effective none the less. The Bad I might be biased but nothing that I can see. I think at this point you know how an address book works so lets just get to it. If you want the same old boring looking address books there are plenty of them out there but if you want something that doesnt look like grandma gave it to you then scroll up and hit the orange buy button today. P.S. If you are giving this to grandma as a gift lets not mention I joked about her.
