Mr. Mandelberg is a wise performer and author who shows us that there's more to psychological illusions than just the mechanics of the demonstration. He

points us to the very important aspects of performance art. A wise teacher indeed! 2 of 2 people found the following review helpful. Great things often come in small packages By Mark Sure, this book isn't a thick, hard-back tome complete with leather binding, but it packs some pretty amazing effects into its pages. Though some of the tricks might sound pretty simple, the effects can be quite astonishing, especially if you work up a good patter (comical or spooky). One thing I find very helpful about this book is that Robert includes his estimated level of presentation difficulty along with its overall impact for each demonstration. Plus, he mentions right off if a partner or any level of set-up is required. Buy this book and get your nose into it. It's a whimsical, easy read with some real gems to add to your repertoire. 6 of 6 people found the following review helpful. Truly an excellent book By Patrick Knock I have read through the many pages of countless magic books only to find myself frustrated with the lack of high impact, hard-to-figure-out tricks. This book, however, was different. A few minutes after reading the first couple of pages I decided to try what I just learned of some of my friends. I blew them away, and they told me I should quit my job and start performing in Las Vegas. If you were to buy this quality of material in a magic store, it would cost around \$50. This is a 'must have' for anyone interested in astounding their friends or family.

I know exactly what you are thinking! These mystifying mind reading tricks are more spectacular than magic; more enticing than card tricks; and much more fun than sleight of hand. Delight and amaze friends, family, and acquaintances with your mastery of these spellbinding techniques. From simple icebreakers to dazzling demonstrations, this assortment of crowd pleasers will convince even skeptical spectators that you have the power to read their minds. Once you learn the basics, a little practice and touch of showmanship will make you the hit of any party. Work alone or with a partner; ham it up or play it cool. Perform these incredible feats and leave them wide eyed and slack jawed wondering "How did he do that?" One dozen top-quality, high-impact insider tricks--guaranteed to leave your audience flabbergasted and ready for more!
