**William H. Benson, Oswald Jacoby : New Recreations With Magic Squares** before purchasing it in order to gage whether or not it would be worth my time, and all praised New Recreations With Magic Squares:

Covering the fundamental aspects of the subject and offering much new material and many new methods, this book presents a wide range of material that will challenge the resourcefulness of interested laymen, puzzlers, and mathematicians. With an appendix containing all 88 fourth-order magic squares in tabular form.
