Su doku beeing too easyBy Gert Bo ThorgersenLes than 2 weeks ago I received the New York Post Pure Evil Su Doku which I had ordered after getting the idea that it should be difficult. But it had no customer review . But now after solving 50 of the 150 puzzles, I must say that they have been so easy that I don't think I'll do the rest.I started with Suduko 4 ago, found inside the weekly newspaper from

Denmark. And one year later, after having had an accident so that I can not yet use my right arm, and besides reading that Suduko is good for the brain, started buying Suduko books. I now own more than 10, and of these I have found the 6 by Will Shortz, and the most difficult on from Menza to be good, even though I would like them to be a bit more difficult. Today I here in ordered one copy of "Expert Suduko" ,by Nikoli Publishing, after having read 3 customers review, all giving 5 stars, and by I think I this time will be bore more lucky.1 of 1 people found the following review helpful. DecentBy D. W. ButlerThe puzzles are challenging but the format is not so great, especially when doing puzzles on the left hand pages.
