Great sudokuBy Kimberly Snow1 puzzle per page, decent sized squares to write the numbers. My only problem is New York Post isn't very consistent with their ratings of the levels. This book was just the right difficulty for me (I like to time myself doing the puzzles and see if I can improve my time) but other "fiendish" books from New York post were not equal level of difficulty.

In 1934 Cheeta appeared in his first of many Tarzan movies, *Tarzan and His Mate*. Cheeta finally retired from the big screen after the 1967 film *Doctor Dolittle*. The oldest living chimpanzee ever recorded, Cheeta, now seventy-six, is retired in Palm Springs, where he has reinvented himself as a globally acclaimed abstract painter.
