2 of 2 people found the following review helpful. this the best edition of Chopin Nocturnes By Donald Macey **OUTSTANDING CHOPIN NOCTURNES EDITION** In my opinion, this is the best edition of Chopin Nocturnes. It is carefully edited with excellent suggestions on phrasing and fingering. The print is larger than most editions. 0 of 0 people found the following review helpful. Great! By Donna Barnett Excellent sheet music, very readable! Currently my favorite Chopin music to play - close second Debussy. This edition has fingering suggestions and pages stay open pretty well. Highly recommend. 0 of 0 people found the following review helpful. A pleasure By Laurie Really nice clear notations and fingering. A pleasure.

Chopin wrote the nocturnes, short pieces for solo piano, between 1827 and 1846. They are considered among the finest short solo works for piano. Although Chopin did not invent the nocturne, he popularized and expanded on it, building on the form developed by Irish composer John Field. This volume is "from the first, critically revised, complete edition."
