I mostly learn from videos on youtube, but having the correct tabs and lyrics lessens the struggle of searching 15 skewed versions. Having the sheet music and tabs next to each other made it easy to understand, and also easier to figure out strumming patterns. I would recommend this book to anyone interested in learning these songs. Tabs can be

difficult to understand at first, and remember not every single note has to be hit perfectly. Play and have fun!0 of 0 people found the following review helpful. great tabsBy Chris J.This product was described and sold as advertised and I am happy with it. Good company.
