Frank Vine : North of the Master Solvers' Club before purchasing it in order to gage whether or not it would be worth my time, and all praised North of the Master Solvers' Club:

It was my bedtime reading for about a month. You get everything from the stories about Professor Coldbottom to scandle about the Blue Team. This book is not just about

bridge, it is about bridge psychology and strategy.0 of 0 people found the following review helpful. Greta bridge bookBy Jeananne25The book is very funny with many witticisms. It also teaches good Bridge practices using humour and wit. Good buy.

Frank Vine's trenchant commentaries on the game of bridge, often thinly disguised as fiction, appeared regularly in 'Bridge World' and other magazines in the 1970s and '80s. This work brings together some of his best articles.
